If the United States wants to survive the onslaught of socialism, if we are to continue to enjoy self-government and the liberty of our hard-fought freedoms, we have to understand there are two opposing forces: One is the “children of light” and the other is the “children of darkness.”
Path Of Light!

Not looking good.
Starting to look like a pre meditated false flag after following up on preliminary police report and driver data.
Driver allegedly circled the protest and went the wrong way up a ramp to come at them from the blind side.

>Bitcoin wallets and “virtual bank accounts” are not entitled to the legal protections of the 4th amendment, according to the US Fifth Circuit Court of Appeals.
The ruling stems from a case involving the seizure of the Coinbase account history of a man convicted on child pornography charges.
The ruling, however, shouldn't come as any surprise, crypto lawyers say.
